This collaboration was a unique team effort which caused "Turn Me On" to be one of Europe's top urban releases in 2003.

After the accomplishment of Turn me on, they released their second single "Fresh". Featuring new R&B singer I.V.A which was also pressed on 12" inch with some extended party break mixes and dancehall mix which reflects the actual "sound" for the streets and the urban clubs?

RMXCRW seems to be very versatile when it comes around music and entertainment and is very popular in the European Urban scene and also known to be one of the best performing acts in Europe.

"Mega D" who is known to many from his featured hit single ("Sometimes") with R&B group Vigilante, was spotted by Dj Chuckie & K.V.R, manager of the group who approached him as being part of the RMXCRW.

Mega is an ambitious artist when it comes to music and carries that raw dancehall influence along with his energetic stage appearance,

"Mc Ambush" who is known to many as the underground rap king has been in the scene for some time, earned his name by his freestyles, hosting radio shows and festival, which has open many doors for him in his music career.

Combining these two together it's like a knock out inside of a boxing ring.

After seeing the great result and team effort of the crew, Dj Chuckie and Naffie decided to step back and give the artist the opportunity to venture out and gain the respect for them selves, hoping that their return would be worth the wild.
